Dear Colleagues and Friends in Japan

Latest geopolitical and travels updates - Hong Kong

I understand that there has been some apprehension arising from the social protests that took place in Hong Kong in the last two quarters of 2019.

I am pleased to inform you all that ever since the District Council elections in the end of Nov 2019, these protests have rapidly disappeared from the streets of Hong Kong. And for two consecutive weeks since the New Year of 2020, there have not been any large-scale protest or traffic disruptions in Hong Kong.

Importantly, incoming and outgoing flights at the **HK International Airport** have maintained normal services in the past months, and measures have been implemented by the HK government to ensure that only genuine travelers and their associates have access. Major **roads and rail** to and from the Airport have also been smooth. I was able to travel to Washington D.C. for the ASN kidney Week on time and return home without any delays.

To give some solid figures, I have looked at the flights between HK and major cities in Japan operated by JAL, ANA and Cathay Pacific, and they have all been running normally. A summary for the past 3 days is included for your reference.

With these, I look forward to receiving more abstracts for the APCN (19 – 21 Jun 2020) from you all. And I also look forward to extending Hong Kong's hospitality to you all. I am pleased to inform you also that the abstract submission deadline has been extended to **24 Jan 2020**.

Yours sincerely,

Sydney Tang

Congress President, 18th Asian Pacific Congress of Nephrology www.apcn2020.org

High Court Order Obtained to Continue Interim Injunction to Restrain Unlawful and Willful Interfering with Proper Use of Airport

📅 2019/08/23

(HONG KONG, 23 August 2019) – Airport Authority Hong Kong (AA) has obtained a High Court order for the continuation of the interim injunction order granted on 13 August 2019 (“Order”) which **restrains persons from unlawfully and willfully obstructing or interfering with the proper use of Hong Kong International Airport** (“Airport”). The Order, as varied, will maintain the status quo until trial or further order of the court.

Any person who neglects to obey or comply with the Order, or any person who assists or incites, aids or abets another in disobeying the Order may be held in contempt of court, and is liable to imprisonment or a fine. Enforcement proceedings may be taken to compel persons to comply with the Order.

Blocking roads connecting to the Airport may constitute acts of unlawfully and willfully obstructing or interfering with the proper use of the Airport.

Persons are also restrained by the Order from attending or participating in any demonstration or protest or public order event in the Airport other than strictly in compliance with the Order. The Order expressly provides that nothing in the Order shall be construed as authorising any demonstration, protest or public order event contrary to the Public Order Ordinance.

The AA is in the process of obtaining sealed copies of the Order and will publish the Order in accordance with the court’s requirements.

Meanwhile, the access control plan implemented for the terminal buildings at the Airport will continue upon further notice. Only passengers with a valid air ticket or boarding pass for a flight in the next 24 hours and a valid travel document, or airport staff with relevant identification document will be allowed to enter the terminal buildings. Staff of the AA and security officers are on-site at the various access control checkpoints to assist bona fide passengers and airport staff to enter the terminal buildings.
