CONGRESS**

SHAPING AOTEAROA & AUSTRALIAN KIDNEY HEALTH: PAST, PRESENT AND FUTURE

**30 AUG – 3 SEP 2025
PERTH, WA**

You're invited to join us on Noongar Whadjuk Country (Perth) for the 60th ANZSN Congress. This year's theme, "Shaping Aotearoa and Australian Kidney Health: Past, Present and Future," celebrates our shared progress in kidney health, addresses today's challenges, and looks ahead to bold, innovative care. The program highlights equity, Indigenous health, sustainability, and the latest in research and technology.

We're proud to welcome world-renowned plenary speakers Professor Adeera Levin, Dr Apisalome Talemaïtoga and Professor Liz Lightstone. Don't miss this opportunity to connect with peers, hear from consumer voices, and be inspired — all against the stunning backdrop of Perth and the Derbal Yerrigan. Join us for this landmark event in nephrology.
