

2nd Renal Nutrition Seminar

Crystal Crown Hotel Petaling Jaya, Selangor, Malaysia | 18th & 19th August 2014

Message

In our effort to improve the lives we touch, we need to equip ourselves with adequate knowledge especially in treating patients on dialysis. One of the major causes of morbidity and mortality in dialysis patients is malnutrition.

Nutritional assessment and management in patients on renal replacement therapy has proved to be difficult and challenging. The National Kidney Foundation of Malaysia has put together a comprehensive interactive programme addressing various aspects of nutritional issues in dialysis patients. We are indeed very thankful in having an eminent foreign faculty to help the course directors in preparing this seminar.

We encourage you to register early as the number of participants will be limited.

See you there!

Dr. Thiruventhiran FRCP
Chairperson, Organising Committee

Dietitian Speakers

Maria Chan, PhD, AdvAPD, AN

Senior Renal Dietitian, SGH / Conjoint Associate Lecturer, UNSW / Honorary Senior Fellow The St. George Hospital, Australia.
